

Tico Manufacturing

Manufacturing of tractors and equipment for terminal services

ERP Implementation and Training.

Tico Manufacturing

Executive Summary

We successfully completed the ERP Migration and Implementation from Microsoft Dynamics to Epicor 10 on cloud.

How we Helped

- Business process mapping.
- Data migration using ETL.
- Design the product configurator.
- Optimized the procurement process, forecasting and Inventory carrying cost.
- Optimized the Quote to Production Process.

Results, Return on Investment and Future Plans

- Tico manufacturing went live in 7 months with an end to end implementation.
- Provided training to the in-house resources to be self-sufficient.
